GALATEA, THE NATURAL ICE CREAM ART ACCORDING TO NATURE

According to Galatea philosophy, the use of natural ingredients that refuses the logic of industrial production means to come back to the original artisanal Italian tradition of gelato and its unique taste. Galatea has used its know-how to give every artisan the possibility to propose a full range of flavours to develop their own creativity in offering customers quality and genuine gelato.

Galatea produces gelato ingredients from quality raw materials and natural colourings and flavourings, employing clean production processes that allow for the traceability of all ingredients. Thanks to a deep know-how and a constant investment in research and development, Galatea has been the first one, in its field of expertise, to provide its customers with a transparent list of ingredients on its labels and to ensure safe certificates to protect consumers' health.

Galatea has been the first and only company in the business to earn a Social Value certificate from ICEA.

Galatea is the first and only certified firm in the sector. Action Aid Italia and Movimento Consumatori are also part of Valore Sociale

BIO

(ORGANIC)

Respect for the nature, for those who produce and for those who consume.

This is the philosophy behind our Organic Line which comprises both cream and fruit ice cream bases, pastes and flavoring powders. Choosing this line means preparing your ice cream with organic products: our milk comes from organic cattle farms; our fruits are naturally grown with no chemical fertilizers; our chocolate is made with Organic cocoa or single origin cocoa beans from Center and South America.

All products belonging to the Organic line are free from palm oil, GMOs, hydrogenated fats, emulsifiers, cochineal red, artificial colorings and flavorings. Our organic line is certified by Bioagricert. All the steps of our production process are controlled by MIPAAF authorized entities.
